Reg 6. Classification

According to the FIM Code for Touristic Gatherings (CTG) **Art 4** "Classification", **CATEGORY 2.3** "International Travelers Challenge", **Each POI has the value of 1 point**.

Each participant must check-in to at least 2 countries to be classified.

While saving the ride to REVER, participants should also include photos taken in front of the POI visited with themselves or the motorcycle (preferably both). This is done by using the "Add photo" feature in "Media" section while saving or later when editing of the Ride.

All the participants must send to CTL (fimtouringinfo@fim.ch) a minimum of 10 photos of themselves visiting the POIs during the Season.

Official ranking published by CTL is definitive (not the one published by ITC Application – REVER), although REVER leaderboard can be used to check the unofficial results.

Distance covered is used in a case of the tie for the three first in the final ranking – 1 kilometer equals 1 point (miles are going to be converted in kilometers)

After the end of the ITC season 2025/2026 as it is defined in Reg. 3.1, the Executive Committee will process and publish the results, no later than **01.12.2026.**
